Section 4 - Trail Segments and Conditions

Please list trail segments below and list any observations about the trail segments that may be helpful for understanding maintenance needs, such as an estimated number of trees fallen across the trail, washouts, brush, etc. For reference, a trail segment is:

- *A section of trail between a trailhead and a trail endpoint;*
- *A section of trail between a trailhead and the junction with another trail; or*
- *A section of trail between two junctions with two other trails.*
